

TalkPerfect Speech Enhancement System

The TalkPerfect Speech Enhancement system is designed to improve communication at fixed screen counters. Based on proven, reliable and patented technology, the full duplex system amplifies speech for both customer and staff whilst rejecting background noise. Combined with excellent audio quality, the intelligibility of the system is unsurpassed, supporting relaxed, efficient communication in the most demanding environments.

The modular design, contemporary styling and wide range of accessories means the TalkPerfect system is always easy to install and never looks out of place whether it is for a retrofit or new build application.

TalkPerfect

Speech Enhancement System

The TalkPerfect system comprises a full duplex intercom system, reinforcing communications from staff to customer and from customer to staff with high quality amplified sound.

A range of microphones and loudspeakers are available for staff and client side to optimise user experience and to integrate well with the aesthetics and spatial requirements for the installation.

The Ampetronic TalkPerfect amplifier is typically installed below counter, providing a fully integrated intercom and control module, with a host of features for integration and versatile use.

User Features

- ◆ Full Duplex Communication
- ◆ Patented Technology
- ◆ Proven Reliability
- ◆ Proprietary noise cancelling microphones
- ◆ Volume boost control
